Steps 2 Success University

2020-2030

S2S University!

A Better Solution

Today, millions of individuals complete their studies and have 4 major issues: to receive self-development opportunities, to market themselves, to find a better job, and to pay back loans.

Steps 2 Success University is a post-secondary private and contemporary institution that provides a solution whereby students supplement their knowledge, increase their credentials, improve marketing of themselves, and ***earn while they learn!***

Founded in 2020, the school provides online classes, professional certifications, and financial opportunities for its students – *a unique and valuable approach.*

With this, students receive education without being left with an abundance of student loans, ranging from \$25,000 to \$250,000 - *to be paid back.* Equally important, up to \$50,000 (and more) can be earned.

Rather than owing \$50,000 in school loans, you can...

“LEARN 2 EARN 2 TURN”

“Your Life Around!”

S2SU students learn and leverage the essential principles of academia and business, while increasing their financial inflows - with excellent income streams.

Why S2SU?

***No Loan Is Needed.
No Loan Is Owed.***

- Self-Paced Learning
- Free Enrollment
- High Student Earnings
- Self-Development Oriented
- Improved Credentials
- Student Opportunities
- A Financial Solution
- Supplemental Income
- Earn While You Learn

No Grant Is Needed.

Our Beginning

The story of our school is important. S2SU (also known as “S2”) was created during a time of need – *during the 2020 pandemic*. Millions of individuals were losing their jobs, people were left with less job opportunities due to corporate downsizing, homicides and suicides exponentially increased, and many additional folks lost their lives, due to not having enough money for cost-of-living expenses (health, food, rent, gas, insurance, etc.) The story, as unfortunate as it is, was *everyone’s experience*.

S2SU was created to provide an academic-business solution, with positive-impact. Focused on the above-mentioned needs, the institute also concentrates on individuals in need of academic and/or financial assistance – by providing opportunities at near-zero cost. Today, S2 offers programs whereby students major in Business, Technology, Music, and Art.

Our Concept

Our school provides students with an opportunity to become effective and efficient managers, leaders, intrapreneurs, and entrepreneurs. With this, students receive free-enrollment and register for courses (starting as low as \$20). Our students are provided with a well-established opportunity to *learn (while they earn)...to turn their lives around*.

Although “money is not everything” (in this capitalistic society), it provides a medium by which you may pay for necessities, participate with entertaining activities (happiness), and provide for your family (security and safety). Conceptually, this win-win-win solution allows for an array of excellent outcomes. Appreciated by our students, TGF is accomplished – and is the key:

- **Tranquility:** *Psychologically & Monetarily*
- **Goodness:** *Spiritually & Happily*
- **Freedom:** *Financially & Lively*

Our Solution

Our student managers earn an excellent percentage from sales. The structure of our systemic solution provides an engine to ensure success is achieved, by each student. Our solution embodies an array of products and services whereby this matrix-of-offers is of high interest.
